Detailed Action

In response to the Amendment of 2/2/07, wherein claims 1-11 and 22 were canceled, and claims 23-28 were added, the examiner withdraws the previous office action rejections, includes a new rejection here under 35 U.S.C. 112, and makes the action final.

Claims 12-21 and 23-28 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The applicant has argued that all of the cited art of Keum, Nistler, Wheeler, and Flanders relates to a mask that includes a single sloped phase edge with a single lateral distance. For example, Keum's FIG. 9i shows a "sidewall phase shift film 16a [that] is formed on both sides of ... [a] first phase shift film 15a" during a single dry etching. See, e.g., Keum, col. 4, line 43-48. Since both sides of film 16a are formed at the same time, during the same etch, it would appear that both sides of film 16a have the same lateral spacing.

However, the disclosure does not support the requirement that the lateral distances be different. Only section [0015] discusses this and applicant's Fig 4A-D, which is the only figure that shows two associated phase edges, does not show it.

Also there is no disclosed limitation that the first and second lateral distance be different, which would have to be a requirement of the claimed invention.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
